Our Story

Who we are

React Studio was founded by Cel and Ben, who each bring more than a decade of experience performing for audiences worldwide. After performing for many different circuses, including Cirque du Soleil, they and their team bring their talent and imagination, to deliver a high quality variety of performances.

Our Vision

Bringing emotions to life

React is a Contemporary Circus Company with a team of accomplished Aerial and Ground artists . We aim to inspire and wow your guests while bringing your creative visions to life.

A photograph of an aerial circus performance at night. Two acrobats are suspended from a vertical pole by a white fabric. The scene is illuminated with purple and blue lights, and there are trees and foliage in the background. A crowd of people is visible in the foreground, watching the performance.

Our Acts

Bringing emotions to life

We can provide many different Aerial and Ground Circus Acts for different venues, events and themes.

From event ambiance and single acts to larger productions, we can create a package to suit your needs.

SILKS

Silks are an elegant and powerful act that can convey a variety of feelings.

These can be performed by one performer as a focus point in the event, or by multiple performers in different areas of your venue to fill the space and create a immersive experience for your guests.

Duo Silks is also possible. Two artists perform on one silk in a dramatic display, flying through the air together, creating a truly breathtaking experience.

TRAPEZE

Trapeze is a versatile act.

It can be performed by one artist (Single Trapeze), by 2 artists together (Double Trapeze) and it can be performed by 3 or 4 artists on the same point (Triple or Quad Bar).

All of these act options can be tailored to your chosen theme. Ranging from a raw, fast paced, dynamic performance, to a more elegant and graceful display of flexibility and strength.

HOOP

The Hoop is a classic apparatus that mesmerises the audience as the performer creates incredible shapes utilising their strength and flexibility. This can be performed by one or two performers on the same hoop and is a great addition to any performance.

Hoop is a perfect apparatus for either ambient performances or center stage contemporary creations.

SWINGING TRAPEZE

Performed by one artist swinging through the air, defying the laws of gravity with incredible acrobatic movements.*

*The performer uses safety lines

SPANISH WEB

Spanish Web is a truly unique visual feast for the eyes. This typically fast paced, energetic act, has our performer spinning and contorting while often hanging from no more than their ankle. An unforgettable center piece to any event or performance.

HAMMOCK

Combining the subtlety of Silks and the flow of Hoop, Hammock is the perfect blend of both. Our performers will dazzle your audiences with this number, as they move from shape to shape seamlessly. This act especially shines when combined with a winch to lift our performers and make them soar.

CONTORTION

Like the circuses of old, our contortionists will amaze you with their unbelievable movements and skill. An elegant act that works well as ambiance or a feature piece for guests to marvel at.

HAND TO HAND

When there's no apparatus to hang from, we will balance on each other. This exciting act will bring energy and feats of strength to any venue. Performed with either 2 or 3 people, our acrobats will balance and flip to entertain even the toughest of critics.

TOSS

As it says in the name, Toss is an act that focuses on one or more performers being swung from side to side, while mere millimeters from the ground. Performed with two Circus Strongmen and 1 or more lovely ladies, this act is something spectacular to witness.

A photograph of an aerialist performing in a studio. The aerialist is suspended in the air, holding onto a blue fabric. The studio is dimly lit with blue and purple lights. An audience is visible in the background, seated and watching the performance. The text 'REACT STUDIO' is overlaid on the top left, and 'CORPORATE. EVENTS. SHOWS.' is overlaid in the center. Contact information is at the bottom right.
